

SEND Information Report and Policy

Review cycle:	1 / 2 / 3 years	Date: September 2025
Approved by:	Full Governing Body / Headteacher	
Changes made in this review cycle:	Updated to reflect current contextual information for SEND pupils	
Linked policies:	Teaching and Learning Policy	
Signed:		
Position:	Headteacher	
Date of next Review:	September 2025	

Headings in bold and italics indicate the information required for the SEND information report as required by the code of practice. Other headings include other items of school policy.

SEND at Nutley CE Primary school

The Children and Families Act 2014 says that all maintained schools must publish a Special Educational Needs and Disabilities (SEND) Information Report every year. This report explains how our school meets the needs of children with SEND. This can be found on our school websites.

At Nutley Church of England Primary School, we are committed to offering a broad, inclusive curriculum that ensures that every child succeeds and makes the best possible progress whatever their needs and abilities. Relationships are very important at Nutley CE School as we believe that happy, settled children are more receptive to learning. Everyone - children, parents, staff and governors - is a valued member of Team Nutley. We have high expectations for every child expecting them to achieve or exceed national expectations at the end of each Key Stage. All children are included in everything we do, including school visits and residential trips in upper key stage two. Support is provided for any child who at any time in their school life requires additional or different provision to help them achieve success. These children may also be those on the SEN register or from groups that are nationally recognised as vulnerable to underachievement such as Child Looked After (CLA), FSM and those from ethnic minority groups. We recognise that any child's circumstances can make them vulnerable to underachievement at some stage in their schooling.

What kinds of SEND are provided for at Nutley Church of England Primary School?

Nutley CE Primary School is a mainstream school working in a soft partnership with the Pioneer Federation.

We are an inclusive school - that means we provide for children with all types of special educational need. At Nutley all class teachers are the teachers of children with Special Educational Needs and disabilities (SEND). The kinds of SEND that are provided for are categorised into four broad areas of need:

- communication and interaction, including speech and language difficulties and autism
- cognition and learning, including developmental delay, and specific difficulties such as dyslexia and dyscalculia
- social, emotional and mental health difficulties including difficulties with behaviour, attention deficit disorder ADD, attention deficit hyperactivity disorder ADHD, attachment disorder or anxiety
- sensory and/or physical needs including visual or hearing impairment, dyspraxia, cerebral palsy and other physical or medical conditions which affect a child's learning

If you would like a place for your child with an Education Health Care plan, please contact your Assessment and Planning Officer at East Sussex Council to apply. If you would like a place for any other child with special educational needs, you should apply through the normal processes. Please see schools admissions on the ESCC website or contact the information for family's team <https://new.eastsussex.gov.uk/children-families/information-for-families>

At September 2024, the levels of identified SEND at Nutley CE Primary School is: 12%

Policies and responsibilities

This report includes details of the processes in place to identify children with SEND and for assessing their needs. Other policies that are useful to consider are the: Accessibility Plan, Behaviour Policy, Equality Policy and Objectives, Child Protection and Safeguarding Policy and Procedures, Admissions Policy, Supporting children with Medical Conditions, Intimate Care Policy, Early Years Policy, Teaching and Learning Policy and Health and Safety Policy. These can be found each schools page on the Nutley CE Primary school website: <https://www.nutleyprimaryschool.org.uk/>

The Governing Body

The governing body have a SEND governor to work closely with the Inclusion Manager. They liaises with the SENDCO and the Senior Leadership of the school to keep up-to-date with, and monitor the school's SEND provision to ensure that the school is compliant with its statutory responsibilities as indicated in the SEND Code of Practice. The SEND Information Report is updated annually and published on the school website.

The governors ensure that the SENDCO, the person responsible for coordinating SEND provision and offering guidance to teachers is a qualified teacher working at the school and that if not already qualified has achieved the National Award in Special Educational Needs within 3 years of being in post. Governors regularly monitor the DfE Code of Practice to ensure the school is compliant with its statutory responsibilities.

The Inclusion Team and the role of the SENDCO

The SENDCO at Nutley CE Primary school is Russell Wadey and is contactable on: office@nutleyce.e-sussex.sch.uk. Mr Wadey is based at Nutley CE Primary school with teaching responsibilities 4.5 days a week and SENDCO 0.5 days a week.

The SENDCO has responsibility for the day-to-day operation of the SEND policy including:

- The responsibility for the day to day operation of the SEND policy
- In conjunction with the Headteacher to plan and co-ordinate the school's strategies for identifying children with SEND; in addition to advising on the deployment of the delegated budget to effectively meet needs, and ensuring the school meets its responsibilities under the Equality Act 2010 with regard to reasonable adjustments and access arrangements
- to co-ordinate provision and manage an effective provision monitoring system, outlining additional provision throughout the school including liaising with the Designated Safeguarding Lead where a Looked After Child has SEN;
- to oversee an efficient system for monitoring, recording and tracking progress of children with SEND, including maintaining a register of such children and keeping records updated;
- to advise on, and where appropriate carry out, more detailed assessment;
- to advise teachers on the graduated response and appropriate teaching arrangements for children with SEND and to assist with the planning and implementation of individual and group learning programmes;
- being the contact for and to liaise closely with and develop good relationships with outside agencies and ensure their advice is used appropriately;
- to ensure continuity for children with SEND from class to class and school to school;
- in conjunction with the ICT co-ordinator, to use information and communications technology to help pupils gain access to the curriculum as an aid to teaching and learning;
- to identify and make provision for training needs; school-based or on courses; involving teaching staff and /or Teaching Assistants (TAs);
- to liaise with parents of children with SEND and ensure that regular discussion takes place with them;
- to seek the views of children with SEND, and to take them into account when planning;
- to link with feeder and secondary schools to ensure smooth transition and to liaise with schools during mid-year admissions where appropriate;
- To use self-review tools as appropriate for reflection and self- evaluation, to form a basis for future development.

The approach to teaching children with SEND

- At Nutley CE Primary School, we want all children to achieve and become life-long learners, confident in

themselves, aware of their strengths and to be responsible respectful citizens. We recognise each child's uniqueness and strengths and endeavour to utilise these strengths and widen the horizons and ambitions of everyone in our school community. All children should be provided with a broad and balanced curriculum that will promote enjoyment, creativity, resilience and fullness of life and meet their individual development needs.

- All class teachers are the teachers of children with Special Educational Needs and disabilities (SEND), and the majority of support wherever possible takes place in class. Our aim is to identify any strengths or barriers to learning as soon as possible, so that intervention can be given at the earliest opportunity to improve the long term outcomes for the child
- High quality first teaching and additional interventions are the basis of our provision management.
- Everyone at Nutley CE Primary School is committed to providing the conditions and opportunities to enable any child with SEND to be included fully in all aspects of school life. Our aim is to identify any strengths or barriers to learning as soon as possible, so that intervention can be given at the earliest opportunity to improve the long-term outcomes for the child.
- Effective inclusion results in happy pupils who make good progress towards targets; show improvement in their independence, resilience, social, communication, English, Maths, ICT and self help skills; are helped to access the wider curriculum; are motivated to learn and develop their strengths, creativity, self-esteem and confidence in their ability as learners; all of which contribute to increasing the positive long term outcomes for children.
- Staff will work in a way to avoid isolation of the children they are supporting and to develop their strengths. Reasonable adjustments will be made to ensure full access and positive well-being.
- A broad and balanced curriculum - the school will use its best endeavours to ensure that all children have access to a balanced and broadly based curriculum (no child will be excluded from any learning activity due to their impairment or learning difficulty, unless it is clearly identified as unsafe via a risk assessment and school has exhausted all avenues for making reasonable adjustments. In these very rare circumstances, the decision will be made in consultation with parents.
- An 'assess, plan, do and review' cycle approach is taken to identify children who may need additional special educational needs support and a plan is put in place for these identified children. This plan may take the form of a Pupil Passport, an Access, Plan, Do and Review (APDR) Support Plan, or an Additional Needs Plan. This plan is then reviewed at least 3 times a year and parents are encouraged to be involved in its development. The plan may include strategies, interventions or suggestions for seeking additional advice from outside agencies.

- Staff awareness - the SENDCo will liaise with the Headteacher of School to ensure that systems are in place to ensure that all staff working with pupils have an awareness of any SEND. Electronic class provision and planning folders hold a copy of the Inclusion register for that class, the termly intervention timetable and relevant APDR plans. In class there are Pupil Passports. Class teachers are responsible for ensuring record keeping systems are set up and are kept in line with SENDCO recommendations (See Appendix A).
- The sharing of Medical Health Care Plans will vary as necessary and depending on need and are coordinated by each school office .
- Intimate care plans are generally coordinated by the SENDCO, class teacher or the school office depending on the level of need. These are shared with those people necessary to ensure that needs are met.

Identifying children and assessing their needs

The SEND Code of Practice identifies children as having a special education need when their learning difficulty or disability calls for special educational provision, namely provision different from or additional to that normally available to pupils of the same age (Code of Practice 6.15). The school also considers whether a pupil may have a disability under the Equality Act and if so what reasonable adjustments may need to be made for them (COP 6.16).

Children identified as having SEND under the above definition are included on the schools inclusion register under the category of SEND. When additional provision that is above and beyond the expected class provision is no longer needed, the pupil will be removed from the register. At Nutley CE Primary School, we are keen to identify barriers to learning as early as possible. The numbers on the SEND registers and the numbers within each category of need are required to be reported to the government and local authority at various times during the academic year.

Children new to the school in Reception undergo Baseline assessment on entry. We also use other screeners in the autumn term such as Language Link that reviews understanding of receptive language and can use Jump Ahead to review fine and gross motor skills. The outcome of these assessments feed into progress discussions and help to identify any gaps in early development.

If your child already has an identified need before they join us, please let us know as soon as possible. This will mean that we can respond quickly to their needs and plan appropriate transition. Please tell us about any other service or professional already supporting your child.

In line with our Access, Plan and Do cycle, each term teachers meet with the Senior Leadership Team and discuss the progress and strengths of all children at Pupil Progress Meetings. Discussion includes analysis of data from within the schools data wall and tracking system, attendance, response to day to day classroom work and routines, additional assessments that may have taken place (e.g. Language Checkers, Language Link, The Thrive Approach profiling, Reading ages), observations and analysis of the playground and behaviour logs and any conversations with parents.

Children making less than expected progress given their age and individual circumstances are identified. This enables children to be identified early as soon as there is a concern about their learning. Less than expected progress can be considered as; progress which is significantly slower than that of their peers starting from the same baseline, failing to match or better the child's previous rate of progress, failing to close the attainment gap between the child and their peers, or widening of the attainment gap.

Discussion at pupil progress meetings and the review of class and playground behaviour also allows identification of those children experiencing difficulty with social interaction or emotional responses. Both barriers and strengths are identified to support successful interventions.

The first level of support – the differentiated curriculum

At this point, the class teacher will adapt their high quality first teaching in attempts to use children's strengths and reduce the barriers to learning. This may include increasing the levels of differentiation used to support the pupil, adapting learning objectives and teaching styles, access strategies, using pre-teaching, small group work, some individual supports, mentoring, peer support, or alternative methods of recording and assessment. Additional support maybe sought such as advice from the SENDCO or outside agencies (in agreement with parents).

The needs of the child will be provided for within the whole class planning frameworks and individual target setting and will be recorded on the Pupil Progress meeting notes. A Pupil Passport may be used to share access arrangements and information to support a positive learning experience with all staff working with the pupil (including supply staff).

Pupils are invited to contribute to this indicating what they want to learn, what is difficult for them and what helps them.

Ongoing monitoring and review

The pupil would continue to be monitored by the class teacher and the senior leadership team at the termly progress meetings.

Identifying a child as SEND

Some children continue to make inadequate progress despite high quality teaching, additional class based intervention and support targeted at their areas of weakness. At this point, a summary of the concerns, the children's attainment levels and strengths will be generated by the class teacher including a review of strategies that have been tried already. These concerns can be recorded on a SEND Record of Concern and shared with the Inclusion Manager. There may be agreement at this point to make use of additional assessments and screeners such as, the Language Link screener, Individual Thrive profiling or other available resources. If progress continues to be a concern following this period of increased focus of Quality First Teaching then individual provision that is additional and different to that available to other pupils may be deemed necessary. This would be shared with parents and if additional individualised provision is put in place the pupil would be categorised as SEND. Parents are informed of this in writing including the allocated category of SEND as described previously. It is the aim that high Quality First Teaching will result in few children requiring such support (see the SEN Code of Practice).

The school uses the definitions of adequate progress as suggested in the revised *Code of Practice*, that is, progress which:

- Closes the attainment gap between the child and their peers
- Prevents the attainment gap from growing wider
- Is similar to that of peers starting at the same attainment baseline, but less than the majority of peers
- Matches or betters the child's previous rate of progress
- Ensures full access to the curriculum
- Demonstrates an improvement in self-help or social or personal skills
- Demonstrates an improvement in the child's behaviour

In the situation as stated above parents would be invited in to discuss the pupil's progress and barriers to learning usually with the class teacher and sometimes the SENDCO. A clear analysis of needs will be carried out using the schools assessment systems, including the individual development in comparison to their peers and national data and other available screener materials e.g. Reading Age assessments, Language Link screeners and Thrive whole school profiling. The child's strengths are considered and identified as a basis to build on. More detailed assessments and advice from outside agencies may be used to give a clear understanding of what additional resources and approaches are required to enable the pupil to make better progress. Parental consent would be gained for an outside referral.

A plan will be developed and written up and recorded on a Pupil Passport, an Additional Needs Plan (ANP) with the identification of a small number of desired outcomes - small measurable, achievable, realistic, relevant and time limited targets,, or a Targeted Additional Needs Plan (for more complex needs). Sometimes a Pupil Passport is more practical for recording and sharing strategies of support when the provision is teaching strategy based rather than intervention based. The best method will be chosen to meet each child's needs.

At this point, we have identified that the pupil has a Special Educational Need because the school is making additional and different provision to what is normally available from high quality teaching and the pupil would be categorized as SEND. This is shared with parents.

If the pupil is able to make progress using this additional and different resource (but not without it) they will continue to be identified as SEND. If, because of additional short-term support, the pupil is able to maintain progress without the additional and different resource, he or she will no longer be identified as SEND and be removed from the register.

Any changes of categorisation will be discussed with parents and they will be formally notified.

The complexity of identifying SEND

Slow progress and low attainment do not necessarily mean that a child has SEND as there can be a number of factors which account for this such as the current family situation, varying rates of cognitive development or a child's interest and motivation. Attainment in line with chronological age does not necessarily mean there is no learning difficulty or disability. Consideration is given to whether provision additional to or different from what is normally available to pupils is in place or required.

English As An Additional Language

Difficulties based solely on the process of learning English as an additional language are not considered to be a sign of SEND. Language development is monitored over time in order that special educational needs, if they are present can be observed, thought about and addresses.

Medical Needs

Children with SEND may also have medical needs but not all children with medical needs have SEND. A child with medical needs will have a Health Care Plan in place in line with the Supporting children with Medical Conditions Policy. Similarly, a child with Intimate Care Needs will have a separate plan and may or may not be identified as having SEND depending on their situation.

Looked after children (LAC)

Looked after children have a personal education plan (PEP). For East Sussex children the ANP form fulfils this requirement. A PEP is a statutory requirement to ensure that a record is maintained regarding the child's educational progress and thus it forms an integral part of the child's overall care plan. The PEP should detail what needs to happen in order for the looked after child to fulfil their potential. This would include any SEND provision if required. Each school has a Designated Teacher for LAC who requires updated training every 3 years. The current Designated Teacher for Looked After Children is the SENDCO . The East Sussex Virtual School provides advice and guidance for LAC and also children adopted from care, on special guardianship orders (SGO), or on child arrangement orders (CAO). Telephone: 01323 464 630 Email: csvirtual.school@eastsussex.gov.uk (contact form)

Additional and different resources

The school will seek to source resources that are required to support a child as advised by professionals in order to make reasonable adjustments for them to access the curriculum.

Arrangements for assessing and reviewing pupils' progress towards outcomes.

Access, plan, do and review meetings are usually timetabled for three times per year and involve the class teacher, SENDCO and where possible, other adults involved in supporting the child. Following this, the SENDCO liaises with parents to share reviewed desired outcomes, short-term targets and barriers to learning and add their input into the process. Focus and targets are adapted if necessary and school welcomes parents input into this discussion. SENDCO discussions with parents around the review process take place at least 3 times a year, wherever possible within 2 school weeks of the school review taking place and are recorded by the SENDCO on a parental liaison sheet.

During review meetings, broad individual outcomes are discussed as these may help identify a wider developmental or social need to support the pupil in making a successful transition into the next stage of their education. Progress in these areas may not be fully reflected in progress data.

As a school we use The Thrive Approach to support children's Social and Emotional well-being. For children who have been identified as needing support in these areas. Parents of these children are updated on their child's progress 3 times a year by the schools Thrive practitioner Jane Sheerer.

The school uses Language Link to screen the language skills of all of reception children and Year 1 and those of concern in Year 2 and KS2.

The School has access to a number of reading and spelling assessments that are also used to ascertain attainment and progress levels for certain pupils to provide information to support the access, plan, do and review process. These may be used with pupils across the year

Provision for Dyslexia is generally provided by adaptive and quality first teaching. The school is using the East Sussex Dyslexia Active tools to monitor and develop provision within the federation for children who find acquiring reading and writing skills challenging. Strategies will be aimed at the gaps in skills, using a child's strengths and developing other useful skills eg using a spell checker. This policy can be found here:

<https://czone.eastsussex.gov.uk/send/communication/dyslexia>.

Support for children with these needs follow the graduated access, plan do and review process. If school is uncertain of the next steps to support development of skills CLASS (Communication, Learning and Autistic Support Service) can be approached for advice.

Educational Health Care Plans (EHCP)

If the child continues not to make progress despite vigorous additional and different resources being utilised, the school in liaison with the parents can request the Local Education Authority to make a statutory assessment of the child's SEN. If the LEA agrees, it collects information from all the people who have been involved with the child. From this the LEA Special Needs Officer decides whether the child needs an Educational Health Care Plan to meet their needs. The East Sussex SEND Matrix gives an indication of the level of need that allows schools and parents to evaluate whether a request for statutory assessment might be appropriate and the statutory assessment paperwork has a checklist that indicates the necessary evidence that is required. Parents can request statutory assessment of their child's needs by contacting East Sussex directly.

For children with an EHCP each year the school must hold an Annual Review of the Educational Health Care Plan with the parents and inviting all the outside agencies involved with the child to assess the child's progress. A representative from the LEA may attend these reviews.

If there are significant changes to a child's SEND or behaviour needs an Annual Review can be called mid-year.

Suspensions and Exclusions:

We do not believe that suspensions/exclusions are the most effective way to support learners with SEND and will try to avoid this as much as possible. We will always work with parents and professionals to try to adapt and personalise provision for children so that they are able to access learning. An emergency review with Senior Leaders will occur for pupils with an EHCP at risk of exclusion. We recognise that exclusion has a significant impact on pupils and their families.

We will work with parents and outside agencies when a child is at risk of any suspension/exclusion, to make sure that all strategies and efforts have been made to keep the child safely in school. We will ensure that parents are informed about school decisions regarding suspension/exclusion by at least 6pm on the day when the pupil was at risk of

exclusion. We will utilise an 'holding slip' in the interim to ensure parents are fully informed. We prioritise regular and effective communication between school and parents and carers. Exclusion is always a last resort.

In exceptional circumstances, it may be necessary to suspend/exclude a pupil for a fixed time and this would always be considered very carefully.

Exceptional circumstances include but are not limited to:

- Incidents that compromise the safety of the pupils and/or others
- Incidents of significant deliberate damage to property

Wherever possible, we will seek advice from ISEND (including TASS Team Around the School and Setting) prior to exclusion and to support transition back into school. All consultation with external agencies will be summarised in exclusion paperwork to parents.

All efforts will be made to ensure that pupils do not miss curriculum experiences if excluded. Decisions to suspend/exclude are made on an individual basis and will always be a reasonable and measured response. Individual pupil deregulation strategies will be taken into account when making these decisions.

Arrangements for consulting with parents of children with SEND and involving them in their children's education.

At Nutley CE Primary School, we are committed to working with parents, recognising they know their child best and welcome parental input into planning support for pupils. We adopt an open door policy for any daily information that needs to be shared between home and school but ask parents to respect that teachers are not always available before school. The schools offices are open from 8.45am. Meetings can be arranged with the class teacher or SENCO via the school office and the SENCO is available by email on office@nutleyce.e-sussex.sch.uk . All parents are encouraged to attend parents evening.

Parents of children categorised as SEND will be invited to be involved in the review of the provision for their child with the SENDCO (and sometimes the Inclusion Manager) at least 3 times a year. The previous provision will be reviewed, any new information shared, considered and new outcomes agreed together as described above. Parents will be encouraged to contribute to supporting their child's learning throughout their time at school. The appropriate format for recording the new provision will also be considered (usually an ANP (Additional Needs plan) perhaps with pupil passport or for more complex needs a Targeted Additional Needs plan). For children with an EHC plan one of these meetings will be the Annual Review of the Plan and all the relevant professionals will be invited to contribute.

Good partnerships with parents and the involvement of the pupil are vital to ensuring that all aspects of a child's wellbeing and development are taken into consideration when establishing possible outcomes and within the Pioneer Federation we strive to ensure parents are involved at every stage of support.

Arrangements for consulting young people with SEND and involving them in their education.

We are formalising the way that children are involved in planning for their learning. Children can contribute to their plan by using having a 'pupil voice' conversation with a key member of staff or an informal 'chat' may take place. A pupil voice questionnaire can also be used to identify likes/dislikes and what makes things hard for them. This information is then used to consider support strategies. In addition, children from the school council, the pupil governors, have regular discussions with the Headteacher. Senior leaders complete pupil voice questionnaires and drop ins at various points of the year.

Arrangements for supporting pupils moving between phases of education and preparing for adulthood

Prior to starting in Reception, the class teacher makes home visits and where possible visits to local nurseries to see the children in their current provision. Local nurseries when possible are invited to some school events and a number of taster sessions take place to familiarise the children with the new setting. Children with SEND identified at this point usually have additional transition meeting involving the ISEND Early Years Team, parents and school in order to plan and prepare for a successful start to primary education.

Year 6 children are invited by secondary schools for transition days in the summer term. Families with children with additional needs are encouraged to make additional visits, and make contact with the SEND department during the

application process. In addition, families are encouraged to participate in other summer workshops taking place at the relevant schools when they are offered. The SENDCO at the secondary school will be contacted by the federation SENDCO for a full discussion or additional meeting if felt this would be useful. EHCP Annual Reviews for a Year 5 child will be planned to take place in the summer term so that plans for secondary transition can be discussed in detail well in advance.

At the end of each year, the senior leadership team plan time for teachers to discuss the pupils transitioning between classes. All records and plans are stored on the school server so that the receiving teacher has access to them. For children who find transition challenging transition books may be made with photos showing the new classroom and new teacher but also things that are staying the same. These can be referred to over the summer. Transition visits to the new classroom and time with the new teacher are planned into the summer term but additional visits can be arranged. When necessary pre-term visits can be arranged to remind children of their new environment and to relieve anxiety.

For children moving to another school we will contact the school and make them aware of any SEND arrangements that we had in place. We will forward records and plans as quickly as possible and where required have conversations with the new school.

How adaptations are made to the curriculum and the learning environment of pupils with SEND

Class teachers understand that they are responsible for the teaching of SEN children. Lessons are planned to address potential areas of difficulty, remove barriers to learning and to utilise children's strengths so enabling all pupils' full access to the national curriculum. This will include differentiation for all children. Subject leaders have included information regarding this in their subject road maps available on the website. Identification of core and aspirational vocabulary is being added to medium term plans. Consideration will be given to the adaption of the verbal and body language used, arrangement of the classroom and learning space, additional materials and equipment, children's strengths and use a range of learning styles. For those children with SEND, their additional and different provision is worked into the curriculum, taking into account advice from outside agencies and any other needs as identified as part of the desired pupil's outcomes. This may involve input from outside agencies, individual teaching programmes, individual strategies or particular resources. It is anticipated that the majority of support takes place within class. Reasonable adaptations will be taken in line with the SEND Code of Practice

Children with additional medical needs have a health care support plan in place. If necessary additional SEND support will be recorded in the ways indicated above and additional needs will be considered in any risk assessment for any off site or curriculum trip or visit.

The expertise and training of staff to support pupils with SEND, including how specialist expertise will be secured

The SENDCO is school based. Working a 4.5 week as a class teacher and 0.5 days a week (Wednesday Mornings) as SENDCO. Being school based enables liaison with teaching staff, parents and outside agencies and time to offer guidance and advice to staff regarding SEND. Russell Wadey is completing the National Award for Special Educational Needs Coordinator Qualification.

The Headteacher allocate the available teaching assistant support dependent on the needs within the school in liaison with the SENDCO. Class teachers work with the SENDCO and Headteacher to ensure the available support is used to its best advantage.

The Headteacher and SENDCO regularly consider the training needs of staff in relation to the current cohort. Training needs identified following the appraisal process and structured conversations and reviews, or the arrival of a new child with are discussed with the Headteacher, CLASS and EP or other support services (e.g. Speech and Language) as

appropriate. The schools access core training from CLASS (Communication Learning and Autistic Support Service) in areas such as Speech and Language, Autism and Dyslexia.

Trainings since Sept 23 or planned for the coming year include:

- Pathological Demand Avoidance (PDA) training from Local Authority EP – Whole School
- Managing break out time for children with ADHD) training from Local Authority EP -SENDCO and Headteacher
- Lego Building, Brick based Therapy Michaela Boyce, CLASS - TA'S
- Managing transitions, SENDCO delivered – Whole School
- Therapeutic Thinking Training for all staff by Emma Robinson, Headteacher
- Teaching Assistant workshops accessed through the Village Schools Association – 2023-2024
- Teaching Assistant training in 2024-2025 – delivered by Sarah Bamford (UC/UTSA)
- NASENCO – SENDCO
- SEN Hub meeting – SENDCO

The school receives core support from CLASS Communication, Learning and Autistic Support Service, Team around the School TASS and Setting and the Attendance Service. Schools can annually apply for core support or buy in credits to access Educational Psychology Service (EPS) and additional support from TASS.. Other specialists can be approached (Teaching and Learning Provision TLP, school health team , NHS services, CAMHS, physiotherapists for example) in addition to those offered by county to provide individual and whole staff training or advice.

Parents are able to access School Health Team self-referrals via the website

<https://www.kentcht.nhs.uk/service/school-health-service-east-sussex/>

New staff training needs are considered during induction. The SENDCO is able to provide advice and training for staff via staff meetings, TA meetings and individual meetings. In addition, training for staff is reviewed by the Headteacher during the appraisal process for both teaching staff and teaching assistants. Any training identified as a need following school-based plan reviews or on the arrival of a new child is raised with the Headteacher by the SENDCO. The school welcomes input from external professionals such as speech and language therapists/Physio Therapists and will facilitate training for staff via these professionals as necessary.

How the school involves other bodies, including health and social care bodies, local authority support services and voluntary sector organisations in meeting children's SEND and supporting their families

The SENDCO is responsible for ensuring that there is good liaison and information sharing with outside agencies as is required and agreed with parents. The school facilitates the training for staff that outside agencies are able to offer often arranging for Teaching Assistants/Learning Mentors to work alongside visiting professionals wherever possible. Where recent information is not available outside agencies involved with a child will be invited to contribute to reviews wherever possible.

A multiagency meeting maybe convened to bring together families and all professionals working with a family to provide a coordinated and joined up support plan.

For children with EHC plans all involved agencies will be invited to contribute to the Annual Review.

Support for families

The East Sussex local offer which shows the support that is available for children and young people with special educational needs and disabilities in East Sussex: <https://localoffer.eastsussex.gov.uk/>

Information regarding East Sussex parent support services is shared with all SEND parents at various intervals, but particularly when a child is placed on the SEND register, an EHC plan is being sought or the parents are expressing concern over the support in place <https://amazesussex.org.uk/>

East Sussex now has an online directory of services found at: <https://1space.eastsussex.gov.uk/>
Parents are able to self-refer to the school nurse team (<https://www.kentcht.nhs.uk/service/school-health-service-east-sussex/>) and contact East Sussex Children’s Integrated Therapy (ESCITS) Service for Speech and Language or Occupational Therapy one stop information point (0300 123 2650) if their child is known to that service.

The SENDCO is able to share a list of supports for parents on request, please do contact the school office if you would like to arrange a meeting to discuss avenues for support. This information is also available from the school office. Information includes:

- o The local offer is available on the school and East Sussex website: <https://localoffer.eastsussex.gov.uk/>

- o NSPCC helpline professional counsellors available 24/7 for help, advice and support 0808 800 5000

Evaluation of the effectiveness of the provision made for pupils with SEND

The Governors, Headteacher and SENDCO use a range of strategies to review the effectiveness of SEN provision. The Quality of Teaching is monitored throughout the year and evaluation of individual provision takes place 6 times a year at pupil progress meeting and at least 3 times a year in structured conversations with parents. Parental comments from questionnaires and meeting feedback are also used to inform our action planning. The East Sussex Quality Inclusion Mark criteria can also be used to support action planning.

Budget allocation

The notional SEND budget is used to provide support across the school; this includes some contribution to providing teaching assistant support in all classes in the mornings, and to provide additional resources and training.

Notional SEND budget	
2024-25	£34,811
	SEND TA, TA support

	within the classroom, Resources and subscriptions, Language link, Sensory Resources, various training.
--	--

Resource Allocation

- Each teacher is responsible for delivering high quality first teaching that takes into account the needs and strengths of all the children within their class. Differentiation, groupings, consideration of the environment and learning styles is available to all children as a part of quality first teaching.
- Each year Senior Leadership consider how the allocation of additional human resources to each year group. This is reviewed throughout the year as necessary when children arrive/leave the school or as differing needs arise.
- Additional support may take the form of the class teacher adapting their usual style/mode of teaching, support from a Teaching Assistant (TA) in focused intervention in groups or for individuals, personalised resources, or personalised advice from outside agencies.
- Where necessary and as recommended by a professional - specialist equipment, books or other resources that may help the child are sought.

How pupils with SEND are enabled to engage in activities available with those in the school who do not have SEND

The expectation is that all children engage fully in all aspects of school life. The majority of SEND provision takes place in class and all children are expected to access the full range of education activities offered including after school clubs and trips. External providers are expected to be inclusive in their offer and make reasonable adjustments. Teachers take this into account in their daily planning. Where necessary additional risk assessments will take place and reasonable adjustments will take place in order for full participation alongside the peer group. For example following risk assessments additional adults may be allocated to a school trip ensuring higher ratios. Wherever possible, with parental consent, outside providers (of after school clubs for example) are provided with information as necessary to ensure full access is possible.

Support for improving emotional and social development

The school has a number of pastoral support systems in place that allow for the opportunity to listen to the views of children with (and without) SEND and aim to prevent bullying. The school has a Personal Social and Emotional curriculum in place, theme days and collective worship are used to focus on and revisit these themes. 'Pupil voice questionnaires' can be used with individuals to ascertain their feelings regarding school in addition to whole school questionnaires and feedback from the pupil governors. Each class has access to a system for requesting talk time with the class teacher or a key adult.

Thrive profiling is used to identify and prioritise need for wellbeing provision alongside a new developed wellbeing referral form, designed after discussions with the Mental Health Support Team. The Thrive Approach, Talkabout, Socially Speaking, Zones of Regulation are the main programmes that we use to support groups and individuals in both whole class and small group settings as needed.

The SENDCO maintains good links with the Educational Psychology Service and can make referrals to Child and Adolescent Mental Health (CAMHS), Early Help and the school health team if required. Other provisions may include speech and language groups, social communication and awareness groups, Jumpahead/BEAM and playtime/lunchtimes clubs and activities. These may be provided as a general whole school activity or as an individual SEND provision.

Admission Arrangements

The school follows East Sussex Policy for admissions (see the Admissions Policy) which takes into consideration the duties required under the Equalities, SEN, Disability and discrimination legislation. Children with an Educational Health Care Plan can name their preferred school as part of their Annual Review and in these circumstances they must be admitted. For all other SEND children the same criteria apply as is stated in the East Sussex admissions policy.

The environment in each school

Like all schools, Nultley CE Primary school is subject to the Equalities Act. We are committed to making all reasonable adjustments towards improving accessibility as we maintain and develop the school and its grounds but observe that Nutley was built many years ago. We would recommend that parents visit the schools to view the site if considering a place for a child with mobility or sensory needs. We will take proactive steps to ensure that disabled pupils and non-disabled pupils are treated equally. We currently communicate with parents in direct conversation, phone, letter and email – we ask parents to let us know if they have a particular need that makes one method of communication easier for them. We are sensitive to the needs of parents whose first language is not English or who may have other communication needs. We encourage you to discuss any concerns you might have with us so that we can plan for full inclusion. Further details can be obtained from our Equalities Policy and Accessibility Plan that are available on our website.

Arrangements for handling complaints from parents of children with SEND about the provision made in school.

We encourage parents to discuss any issues with us as soon as they arise. We are always happy to meet parents and discuss any concerns they might have. Please refer to our school complaints procedure which is published on our website and is also available from the school office.

Appendix A – Records and responsibilities

Class teachers are responsible for ensuring that adequate intervention records are kept and stored in the appropriate place following the guidelines below:

Information required	Person responsible	Location
Additional Needs Plan	Class teacher Master copy in electronic SEND folder	Individual child’s SEND folder
